All the power of Emailage data and analytics at your fingertips. Maximize efficiency and productivity with our powerful, easy to use interface featuring cutting edge data visualization.

Empower Your Analysts with the Latest in Fraud-Fighting Technology

Portal 3, designed from the ground up with fraud professionals in mind, is an intuitive state-of-the-art tool that maximizes the efficiency, productivity, and accuracy of fraud management teams around the world.

Customized for Speed, Accuracy & Efficiency

Portal 3 features a flexible, fully customizable interface that seamlessly adapts to your organization's unique needs. Your fraud management analysts will benefit from easy to understand, dashboard-style data visualizations, including our exclusive Digital Identity Score matrix, streamlining the decision process and boosting accuracy.

Portal 3 offers expanded data input and output fields, allowing you to search using over 30 data elements and receive **over 100 valuable outputs** in return.

Enhanced Automation & New Inputs

With Portal 3, you don't have to be an automation engineer to get the most out of our fraud-fighting tools. Portal 3 features "deep-linking" technology, which automatically pre-fills searches with just one click. This feature easily integrates into your workflow, eliminating the need to re-key data, reducing errors and saving valuable time.

Effortless Reporting & Reviews

Emailage Portal 3 offers powerful reporting and administrative tools to make fraud management quick and painless. Access real-time fraud reporting and performance metrics - you'll never wonder how your fraud strategy is performing again. Your customized performance reports are available to analyze any time through a digestible and easy access dashboard.
